

WELDLINE offers the most popular stainless steel and aluminium welding grades for MIG welding, within the tight constraints of the AWS standards.

These competitive-priced wires are supplied without agency approvals.

All wire grades can be supplied with a 3.1 chemical analysis certificate according to EN10204.

MIG wires are precision layer wound for trouble free feedability

Stainless steel MIG wires

BS 300* spools

AWS A5.9	Description	Diam. (mm)	Packaging	Cat N°
ER 308 L Si	WL wire 308 L Si	0.8	15 kg - BS 300	P000956332
		1.0	15 kg - BS 300	P000956320
		1.2	15 kg - BS 300	P000956322
ER 309 L Si	WL wire 309 LSi	0.8	15 kg - BS 300	P000956334
		1.0	15 kg - BS 300	P000956324
		1.2	15 kg - BS 300	P000956326
ER 316 L Si	WL wire 316 LSi	1.0	15 kg - BS 300	P000956328
		0.8	15 kg - BS 300	P000956336
		1.2	15 kg - BS 300	P000956330

Aluminium MIG wires

BS 300* spools

AWS A5.9	Description	Diam. (mm)	Packaging	Cat N°
ER 4043	WL wire ALSi5	1.0	7 kg - BS 300	P000956050
		1.2		P000956052
		1.6		P000956054
ER 5183	WL wire ALMG4.5MN	1.0	7 kg - BS 300	P000956038
		1.2		P000956040
		1.6		P000956042
ER 5356	WL wire ALMG5	1.0	7 kg - BS 300	P000956044
		1.2		P000956046
		1.6		P000956048
